

////// FOUR SEASONS RESORT - SEYCHELLES

Client - HPL Properties / Completed - 2009

The new Four Seasons Resort at Petite Anse Bay, Mahe Island, rests very lightly upon the spectacular natural beauty and terrain of the site. A lightness achieved by perching slender stilts on existing boulders, by building around trees and outcrops. All the more joyful, the "hidden" surprise of long span cantilevered structures, clinging to steep slopes, jutting out as dramatically as the vista of land, sea and skies beyond.
